Description

The 2024 EX is agile, fun and playful, with a more powerful engine and better durability than anything else in the rec-lite segment.

The EX is the most affordable WaveRunner in the Yamaha line-up - delivering maximum fun for a very affordable price tag.

With its lightweight hull design, and high performing Yamaha TR-1 engine, the Yamaha EX punches well above its weight, when it comes to excitement, performance and price.

This craft has been designed to deliver unmatched agility and exceptional fun on the water, while still maintaining the stability, versatility and full three seat configuration that makes Yamaha WaveRunners great for families and three-up riding. It includes a built-in tow hook, convenient reboarding handle, non-slip floor mats, multi-function LCD instrument display and 29 litres of storage.

If you are looking for a tough, fun and responsive watercraft at price point to suit even the tightest of budgets, then the EX is for you.
