Description

Fish Hunter

Take no prisoners in the rugged Stessco Fish Hunter. The Fish Hunter is the genuine fisherman's centre console. Easy to handle, there are no fancy bits and pieces here. The Stessco Fish Hunter is all about useful space and fierce dependability. Whether you are looking to chase jewfish inshore, or snapper offshore, the Stessco Fish Hunter is one of the best fishing boats you could step into.

The Fish Hunter comes in five models ranging in size from 4.7 metres up to the top of the range Fish Hunter 509 coming in at 5.5 metres. All the boats in the range are built tough on a standard Stessco aluminium hull. Internally, the floor space is excellent with a single level floor from the bow to the transom. The console is pushing ahead of the centre of the boat to deliver massive cockpit space in the rear.

Featuring a compact console, the Stessco Fish Hunter is still fitted with enough space to fit a large modern multi-function display. There is a small shelf below for storage and another at floor level. The compact console leaves plenty of room either side to move around the boat. The helm seat is a traditional leaning post/storage box design, delivering ample storage and comfort. The transom is open with excellent access to the back of the boat.

The Stessco Fish Hunter hull features tough marine grade aluminium 3mm panels and sides with a safe and sure ride in all conditions. If the weather comes up, the Stessco standard hull is unfailingly steadfast. Spray is kept well away from the boat.

The ultimate fishing package, the Stessco Fish Hunter range offers the scope to upgrade and add elements as you go. The Stessco Fish Hunter is the front-runner in modern customisable fishing platforms. Add a T-top and sunshade, rod holders, and a live bait tank. The options are boundless.

The Stessco Fish Hunter is the most dependable fishing boat for the hardcore angler.
